Future Fitouts  
PO Box 3145  
**Newstead QLD 4006**

Dear Future Fitouts,

### WIA Testimonial

*At WIA, we have access to the world's leading welding brands, including Miller for equipment and Hobart for filler metals. As part of the ITW (Illinois Tool Works) global manufacturing group, we are driven by innovation, customer needs and technical expertise. We have been supporting and advising Australian welding industry for over 50 years.*

*Our task was, we had a very short lead time to relocate our Brisbane Sales and Distribution Centre, and once a suitable location was identified, we needed to quickly obtain quotations for various works including fitout of offices and a demonstration bay.*

*We thought we had an idea what our needs were, however with no existing association with building contractors, we were in the hands of those we contacted, to be able to do the job right first time, be competitive and meet our tight deadlines for provision of quotes and completion of the job.*

*It was our good fortune that we selected Future Fitouts to provide a quotation. From initial visit to completion everything has been quietly efficient. Aaron was measured in his assessment of what we thought our needs were and that inspired confidence we were dealing with a professional outfit, which was further confirmed when we received our comprehensive quotation.*

*On appointment of Future Fitouts, the process was seamless and whilst we were contending with other matters, the Future Fitouts team, with Alex as liaison, quietly went about their jobs with the minimum of fuss.*

*I was especially impressed by the liaison between our electrical contractor and Future Fitouts, which again provided peace of mind that the job was in capable hands.*

*We have not had any dealings with any other fitout contractor and based on the level of service provided by Future Fitouts there is no reason for any others to be considered, this was a quality job well executed.*

*I thank Aaron and the team for the efficient professional approach which enable WIA staff to concentrate on other facets of our move, highly recommended.*

Yours sincerely,

General Manager
